

ENERGY EFFICIENCY INSIGHTS FOR SMART ENERGY MANAGEMENT

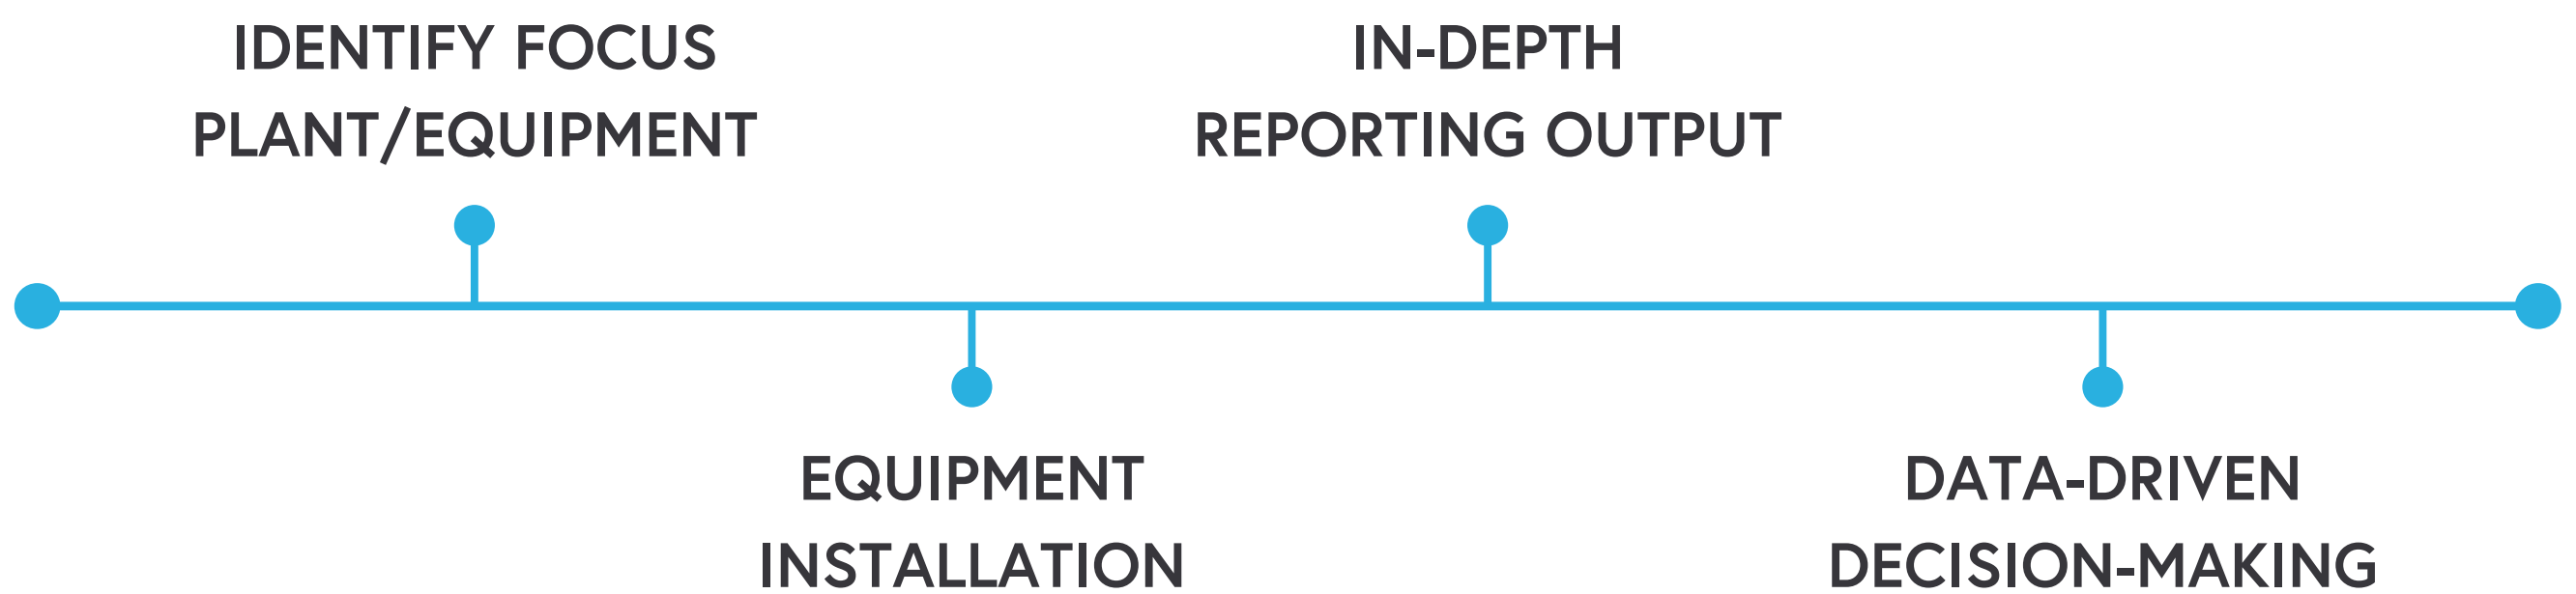

HOW, WHEN, AND WHERE IS ENERGY BEING USED ACROSS YOUR SITE?

Gain visibility of site energy consumption using MEMU[®] to realise opportunities to maximise energy efficiency savings and improve cost and carbon performance.

MEMU[®] ROADMAP

SIMPLE
ACTIONABLE
SUSTAINABLE

REDUCE ENERGY CONSUMPTION AND COST

BENEFITS

- Actionable intelligence for energy and water saving opportunities
- Predictive maintenance
- Energy waste / underperformance detection
- Early failure detection
- Drive reduction of energy consumption and cost to deliver savings

ABOUT MEMU[®]

- Data-driven diagnostics at site, building, room and plant level
- Simple, fast, non-invasive installation
- Tailored to specific site requirements
